|              |    | 17 January 1952. In addition, there is the possibility that the 72d 6ds My Tank SP Regt of the division is stationed in Altes or Reues Lager, where still another mechanized regiment of the 1st Recz Div may also be quartered. The   |     |
|              |    | Newes Lager is believed primarily to consist of garages shaltering the vehicle of the troops in altes Lager. As 152-mm guns were previously observed with the 25th Tank Div in Oraniemburg and also no stioned in the present report as belonging to the 1st Tecz Div, it is possible that the artillery components of the tank and mechanized divisions are, contrary to previous assumptions, equipped with artillery pieces of this calibor, probably guns, howitzers or garages. | 9   |
